Professional Summary

Senior Full Stack Engineer with **5+ years of demonstrable experience** in the design, development, and deployment of highly scalable software solutions. Specialized in the **Angular** and **Node.js** ecosystems, with a track record focused on **digital transformation and technical performance optimization**. Key experience in high-criticality projects within the government sector, leading the architecture and delivery of systems that handle sensitive data and significant traffic volumes. Seeking a challenging role where I can apply my expertise to drive technical efficiency and product excellence.

Professional Experience

Senior Full Stack Developer | External Consultant

Consejería Jurídica del Gobierno del Estado de Campeche | August 2019 – Present

- **Project Leadership & Delivery:** Led the development and delivery of **5+ critical government systems** (Document Management, Inventory Control, Ticket Support System, Official Web Portal, Lexius Campeche), which currently support over **50 internal users** and provide services to thousands of citizens.
- **Methodological Efficiency:** Successfully implemented the **Scrum** methodology, optimizing development cycles and achieving a **40% reduction** in delivery times for new features and bug fixes.
- **Performance Optimization:** Rearchitected the Official Portal's *frontend*, consistently achieving scores above **96/100 on Lighthouse** for *Core Web Vitals*, significantly enhancing user experience and search engine indexation.
- **Stack:** Angular 15+, Node.js/Express, MongoDB.

Freelance SEO Consultant

Canavati Seguros – Mérida, Yucatán | July 2025 – September 2025

- **SEO Strategy:** Developed and executed an intensive **2-month SEO foundation plan**, including technical audit, *keyword research*, and full configuration of **Google Search Console** and **Google Analytics 4** for 100% of digital assets.
- **Content Impact:** Planned an editorial strategy for **10 sector-specific blog topics**, focused on driving organic local and international traffic acquisition.
- **On-Page Optimization:** Completed optimization of **5 key landing pages**, improving metadata and structure with the objective of increasing the **Click-Through Rate (CTR) by 25%**.

Systems Coordinator

CDA Península | August 2017 – September 2019

- **Process Automation:** Developed and implemented **2 internal systems** (Inventory and Reports) which resulted in the **85% automation** of report generation tasks previously performed manually.
- **IT Availability:** Managed network infrastructure and technical support for a user base of **50+ users**, maintaining a network service availability of **99.9%** throughout the term.
- **Security:** Implemented baseline IT security measures, **reducing user-reported incidents** by **30%** through proactive protocols.
